

A man with short dark hair is crouching on a light grey floor against a plain white background. He is wearing a dark blue and purple patterned tweed suit jacket and matching trousers. He is holding a silver vintage camera with both hands, framing his face. He is wearing a green ring on his left ring finger and a gold chain bracelet on his left wrist. He is also wearing white sneakers. The text "DASHING TWEEDS" is overlaid in a stylized, outlined font across the middle of the image.

COLLECTION

At Dashing Tweeds we are always pushing the boundaries. This year is no exception. Our primary wish is to cheer everyone up with a spectrum of vibrant colour and design.

We are introducing four strong looks all woven in fine Merino yarns. These worsted fabrics are ideal for summer days, they drape elegantly, wick away perspiration and naturally block out harmful ultraviolet light, protecting you from the sun's strong rays.

We love to maximise the use of colour, it's a joy to have no limits and play with all possible combinations. As homage to Sir Isaac Newton's famous thesis on light and colour we have chosen names from his great book Opticks.

OPTICKS

First up we have Opticks, a beautiful cream summer cloth with a multidirectional twill structure and an overcheck in space dyed Japanese cotton.

The unique weave structure of Opticks gives the fabric a lively finish with a light wave that enhances any tailoring.

PRISM

By filtering sunlight through glass blocks, Newton discovered it is a mix of many different colours. It thus seems fitting that we have named our most colourful cloth Prism.

This check in pinks, yellows, greens, grey and purple pulsates with complementary colours and certainly won't go unnoticed.

SPECTRA

Our most intriguing new design we've named Spectra, a cloth that almost vibrates with a psychedelic energy.

We chose fine worsted yarns of green, purple and blue juxtaposed in an exciting weave structure. The effect is immediately striking if not arresting.

CHROMA

Chroma is our final new summer worsted featuring interlacing threads of green, purple and grey against a dark navy ground. The graphic nature of the design imparts a masculinity which lends itself well to tailoring.
